INTRODUCTION

Hi, my name is Emma Twaddell, I'm the Chair of the St Albans Residents' Association.

Sixteen years ago the association was formed with a purpose of encouraging activity that promotes the welfare of you, the residents of St Albans.

One of the most recent things we've done is developing the 'Pop-Up Community Centre' - a mobile barbecue trailer available for any group or neighbourhood in the community to use.

It is my experience that the people who make the most noise get the most attention - "the squeaky wheel gets the oil". SARA helps our community by highlighting what is needed and wanted in the area to those who make the decisions.

Participate with me in this survey so we can identify the Top Twenty things that St Albans residents want to see happen in the next decade.
